Important events to be reported: The Supreme Court of Hungary rejected the Company's appeal regarding its exclusion from the 5G tender

The Company would like to inform its investors and the market that, on 4 February 2021, the Supreme Court of Hungary dismissed the Company's appeal and thus upheld the first instance court's judgement, which maintained as lawful the decision issued by the Hungarian Media and Informations Authority (NMHH) to reject the Company's participation in the tender related to wireless broadband services supporting the introduction of 5G in Hungary (**5G Tender**).

The Company filed, amongst other legal means it used, this statement of claim challenging the authority's refusal to register the Company in the 5G Tender which has now been settled in favour of NMHH and also a statement of claim by which it challenged the decision awarded in the 5G Tender on its merits. The second litigation is still pending in front of the Metropolitan Regional Court.

The Company will analyse what future legal remedies are available to better protect the Company's legitimate interests.
